The following action is in response to the amendment received February 11, 2005.

***Allowable Subject Matter***

Claims 1, 7-11, and 16-20 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a foot activated device as defined in claim 1 and particularly having a cam that moves the pawl axially along the shaft to selectively disengage the pawl and ratchet escapement in response to further foot pressure on the foot pedal.

Similarly the art of record fails to show or teach the foot operated clutch activating device as defined in claim 11 and particularly having a cam that moves the pawl axially along the shaft to selectively disengage the pawl and ratchet escapement in response to further foot pressure on the foot pedal.

The art also fails to show or render obvious the foot operated clutch activating device as defined in claim 20 and particularly including means responsive to positive foot pressure on the pedal means for unlocking the device and returning the device to a clutch engaging position. The "means...for unlocking" language of claim 20 is seen to invoke the sixth paragraph of 35 USC 112 such that the claim is construed to cover the

corresponding structure, material, or acts described in the specification and equivalents thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
